

HARNESS X-PAD

Malta Dynamics offers a variety of harness accessories that will make your job easier. Our team has designed high quality, rugged components that will ensure top performance, comfort, and safety for you and your crew. The Malta Dynamics Harness X Pad is compatible with all Malta Dynamics harnesses, as well as many other makes and models of harnesses on the market. The level of detail worked into every X Pad allows it to be easily installed and removed whether you are cleaning the pad or moving it to a new harness. Its breathable design prevents heat buildup, allowing you to work in comfort all day. The hook and loop fasteners and light weight design ensure the X Pad stays just where you want it.
