

FULL BRIM HARD HAT WITH VISOR

Malta Dynamics has put together a hard hat visor kit that is designed to give full protection for both your head and face at the same time. This kit includes one of our fan favorites, a 4 Pt. Ratchet Full Brim Style Hard Hat, and a full face visor with a bracket for attachment to the hard hat. The standard hard hat with a full brim features a poly brow pad and four points of attachment for a more secure fit. The full brim on the hat protects against splash, glare, and sun exposure, while the ratchet system allows for a snug and comfortable custom fit. The Malta Dynamics flat acetate visor is to be used in conjunction with the Malta Dynamics brand face shield brackets to protect against light chemical splashes and impacts. Malta Dynamics visors conform to ANSI/ISEA Z87.1-2010 standards and meet OSHA 1910.135 and 1926.100 for face protection when used in combination with Malta Dynamics headgear or face shield brackets.

KEY FEATURES

- 1. Durable, Innovative Face Shields Resist Impact, Chemicals, Shattering, and High Temperatures**
 - 2. 4-Point Suspension with Front and Rear Vertical Height Adjustments**
- Rugged, Lightweight Shell on Hard Hat Holds Up to Tough Punishment
 - Bracket Easily Fits Over Safety Glasses and Half Mask Respirators
 - Equipped with Cushion Pillows and Nape Cushion for a Snug, Comfortable Fit
 - Low-Profile Design and Low Center of Gravity Offer Excellent Balance
 - Hard Hat Ratchet Suspension Ensures Fast, Easy Size Adjustments
 - Quick Reference Manufacture Date Imprinted on Underside of Brim
 - Visors Are Impact- and Chemical- Resistant
 - Innovative Internal Suspension Bends at Flexible Points for a Better Fit
 - Unique Face Shield Composition is BPA- And EA-Free
 - Made in the USA
