

HORIZONTAL LIFELINE BAG

Malta Dynamics' Horizontal Lifeline Bag provides you and your workers with high-quality fall protection tools and resources that are portable and durable. This lifeline kit provides fall protection for up to four users at a time and includes a 100' synthetic rope, a highly corrosion resistant tensioner, four steel O-rings, two self-locking carabiners, a tensioning wrench, two 6' cross arm straps and a double-braided high-visibility green rope. The horizontal lifeline bag features a minimum breaking strength of 5,620 lbs. and equipment made from stainless steel and aluminum. The horizontal lifeline system is easy to use and can be installed and removed in minutes.
