

TYPE 1 SAFETY HELMETS

Work all day knowing your head protection won't fall off when you need it. Malta Dynamics Safety Helmets come equipped with a six point suspensions system than can be tailored to your custom personal preference to ensure you experience a secure and comfortable fit. The adjustable chin strap and head band allow the user to set the ideal position so it's always ready to wear when you suit-up for the job.

The sliding air vents allow the user to keep heat locked in while working in colder temperatures and can also be opened to promote air circulation when a cooler experience is preferred. All the Malta Dynamics Safety Helmets can be fitted with clear or tinted anti-scratch visors so you can protect your head and your eyes with one piece of equipment.
